Fast, flexible and future-proof rental software

inspHire lives and breathes rental, helping thousands of rental businesses of all sizes across the globe digitise their rental processes, increase utilisation and improve their bottom line. We are trusted by some of the most respected names in the industry and have provided solutions that allow our customers to join the dots where other providers fall short.

Our industry-leading, award-winning rental software solutions focus on making the lives of our users easier, now and in the future. Having a transparent and collaborative working relationship with our users empower us to continually develop our systems to suit businesses of all sizes, ranging from single-user and single depot, to thousands of users operating on a global scale. Rest assured, no matter the size of your business, industry you operate within and most importantly, your requirements, inspHire has got you covered.

The rental industry continues to evolve with working methods, regulations and customer behaviours constantly changing. Now is the perfect opportunity to embrace and anticipate these changes with the help of the inspHire team. From increasing productivity to promoting sustainability, start your digital strategy with inspHire today.

Intrigued? Let us take you on a journey that will show you exactly how inspHire's solutions can save you time and money by driving efficiencies across your entire business.

Rental and sales order processing

Effortlessly manage the entire rental cycle with inspHire's core solutions, Office and Corporate Edition. Take advantage of the powerful tools that enable you to gain total control of your business.

Seamlessly convert quotes to bookings

- ✓ Create key documentation in seconds
- ✓ Manage flexible rates and prices
- ✓ Compare supplier sub-rent prices
- ✓ Manage cross-hires, exchanges, suspensions and more

1

2

Instantly see what's available

- ✓ Rapidly scan equipment for simple allocation
- ✓ Easily see rental equipment availability
- ✓ Ultimate cross-rent functionality to manage shortfalls
- ✓ Manage serialised and non-serialised stock with full certification tracking

Logistics and planning made easy

- ✓ Manage all logistical activities, including third party transport
- ✓ Capture digital signature and damage management photos
- ✓ Easily allocate deliveries, collections and depot transfers onto vehicles
- ✓ Assign a delivery to a single vehicle or split it across multiple vehicles

3

4

Invoicing at the click of a button

- ✓ Produce thousands of invoices in minutes and send in bulk
- ✓ Read customer account information live from your accounting package
- ✓ Email invoices to customers on a mass scale
- ✓ Full fixed asset register functionality available

Dynamic, interactive reporting

- ✓ Gain an in-depth insight into every area of your business
- ✓ Create live rental reports on what's out where
- ✓ Produce your own custom reports using SAP Crystal Reports
- ✓ Analyse the utilisation and ROI of your rental equipment

5

Effectively manage your global operations, all from within one solution

inspHire Corporate is a multi-company, multi-language, multi-currency enterprise-level rental ERP that enables a consolidated view of your global operations and performance. With extremely advanced features, inspHire Corporate is designed to meet your specific business requirements and completely adapts to make managing complicated processes easy.

From the first demonstration it was obvious that inspHire ticked far more boxes than any other supplier

Grow your business with rental management software you can trust

Gain full visibility of what's going on across your business by operating an all-in-one solution that not only connects the dots but saves you time and costs.

- ✓ Deliver a superior level of control with easy access to your rental data, including the ability to see equipment availability from multiple companies/locations within one centralised view.
- ✓ Drive efficiencies, customer retention and business performance with inspHire's advanced reporting suite and receive daily notifications for sales pipeline and interactive views.
- ✓ Manage your entire business in one system: inspHire enables your preferred systems to work together seamlessly, alleviating maintenance and enabling you to capture a picture of the ROI of your chosen systems.

Workshop and maintenance

With inspHire's fully integrated workshop functionality, in both Office and Corporate Edition, you can ensure all assets are safe, compliant and ready for hire at all times.

Cover all angles of workshop management

- ✓ Quickly book items in and out of service or repair
- ✓ Easily allocate parts and labour to workshop jobs
- ✓ Raise purchase orders to suppliers directly from a job
- ✓ Customer sign-off for repair and damages

1

Minimise breakdowns, maximise utilisation

- ✓ Instantly create breakdown jobs with inspHire Mobile
- ✓ Proactive scheduled maintenance reports
- ✓ Highlight recurring equipment failures
- ✓ Record meter readings against your equipment

2

See what's in service from anywhere

- ✓ Allocate workshop jobs to engineers while on-the-go
- ✓ Easily see the full-service history and expiring certificates
- ✓ Enhance customer service by repairing customer-owned equipment
- ✓ Know the status of your services and repairs at all times

3

Be one step ahead with certification

- ✓ Create checklists to ensure jobs are completed to regulation standards
- ✓ Be alerted with certificate expiry when allocating an item to a contract
- ✓ Effortlessly organise your team with the Resource Scheduler
- ✓ Use SmartViews to track when items are due to be renewed

4

Save time, parts and money

- ✓ Analyse costs and income on each job down to the individual parts used
- ✓ Seamlessly raise purchase orders to suppliers directly from a job
- ✓ Charge a client for internal repairs, including timesheet entry for engineers
- ✓ Build an archive of works jobs for an overview of performance

5

Everything you need to run your rental business, effortlessly

Trusted by thousands of rental companies worldwide, inspHire Office is ideal for hire businesses of all sizes with single or multiple depots. Full of powerful, flexible features that make running your entire hire business simple. This is your opportunity to digitise your processes with a complete solution designed for rental businesses in every sector.

Taking on inspHire was one of the best decisions we've made as a business

CHIPPINDALE

HIRE & SALES

Vehicle tracking systems that give you a complete overview of your fleet at all times.

Web mapping that offers satellite imagery, street maps, 360° street-view, real-time traffic conditions, and route planning.

Confirm that your machines are well maintained without having to travel around work sites inspecting machines.

Send beautiful emails, connect your e-commerce store, advertise, and build your brand.

Manage and produce all of your PAT test reports and certificates.

Online accounting for businesses to manage invoicing, bank reconciliation, bookkeeping and more.

For small businesses and self-employed workers to manage their accounting processes.

Get started with inspHire

Our skilled team of industry specialists has a passion for our rental management software and providing the best customer service. Our priority is to get to know you and your requirements to look after you every step of the way when implementing inspHire Office and Corporate Edition.

Consultation and demonstration

First, we will find out what you are looking for in a hire software solution and talk through your key objectives. We'll consider your individual business requirements and identify the benefits you will enjoy from using inspHire and look at the ROI, ensuring you get the most out of your system.

Implementation, project management and training

Our highly experienced team will be on hand all the way through your project. We'll provide you with practical lessons and training, and we'll agree on your objectives and milestones to ensure deadlines are met, ready to go live. With decades of real-life hire exposure, you can rest assured that you're in the right hands.

Account management and helpdesk

Our account managers are here to help you get the most out of your inspHire system, giving you tips and advice on which new features will improve your business processes. Our dedicated helpdesk team are on hand by phone or email to assist when you need it, and our very own online customer portal gives you access to help files, training videos and much more.

Development

We have an expert team dedicated to developing innovative new products using cutting edge technologies. As a result, we're constantly improving and adding new features to our software that enable you to embrace new functionality and technology as you need it. That way, you stay ahead of your competitors.

Product features matrix

Whatever your hire business requirements inspHire has the solution for you. Designed to be scalable, they will grow as you grow, giving your rental business the fit needed for now and for the future.

Enterprise level system administration		✓

Go green and grow profit

At inspHire, our products help you go green for a better future. But the benefits don't end there. Our full range of products can drive efficiencies throughout your operation.

As shown below, this means you can:

Reduce footprint & expenses

No one likes waste. But when customers rent, they get what they need, exactly when they need it.

Keeping what they need on-site reduces customers waste and storage costs. And this cuts their carbon footprint.

They also reduce their up-front investment costs. Plus, there are no maintenance fees to pay. Or expensive storage fees.

Optimise your equipment

Inefficient scheduling of equipment means more harmful fumes for the environment. Meanwhile, your business could pay higher annual fuel costs of 10-30%.

inspHire's Asset Tracker helps you see where your equipment is. Then the software helps you define a depot radius. That way, it's easier to sub-rent your gear locally and create efficient delivery routes.

Go paperless

Printing doesn't just use trees. All the maintenance, storage, and management costs combine to more than you'd think.

inspHire's Hire & Sales Order Processing module sends all your proposals and invoices online. And the Operator and Resource Scheduler will digitise all aspects of your resource management.

When you go paperless with inspHire, you remove your printing headaches. Which means you can enjoy a clear and stress-free audit trail.

Work in the Cloud

On-site servers mean you pay for the power and air-conditioning. Plus, fork out IT consultants and all the hardware and software updates.

inspHire can run on a cloud server, which helps you avoid all these expenses. It also enables you to reduce your carbon footprint by 60%. And 15% on annual outlay costs.
